### Medical.

AYER'S  
Sarsaparilla

FOR PURIFYING THE BLOOD,

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sore Eruptions, Pimplas, Pustules, Ulcers, Boils, Blains, & all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER, Gent: I feel it my duty to acknowledge what your Sarsaparilla done for me. Having inherited a Sarsaparilla life, I have suffered it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which I put to the test, and found it was a Sarsaparilla. I tried many medicines and several physicians, but with much relief from anything. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alternative to your Sarsaparilla. I sent for it, and took it, and the same day my pain was gone. I tried anything that made me feel better, but nothing could be compared to it. I sent to Cincinnati and got it, and used it; but it cured me. I took it, you advised in small doses of a teaspoonful over a month, and used almost three bottles. It was good, though not strong, for the first few weeks, but then it lost its power. I used it again, and again, until it fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully yours,

ALFRED D. VALLEY.

St. Anthony's Fire, Rose or Ergysipelas, Foster's, Sore Throat, Scrofula, Head, Skin, Eyes, Breath.

Dr. Robert M. Prichard writes from Salem, N. Y., 12th Sept., 1859, that he has cured an Inflammatory Case of Prigo, with the aid of your Sarsaparilla, by the peruvian use of our Sarsaparilla, and also dangerous Malignant Ergysipelas by large doses of the same: says he cures the common Ergysipelas by constantly.

Bronchitis, Goitre or Swelled Neck.

Zebulon Sloan, of Prospect, Texas, writes: "Three bottles of your Sarsaparilla have given me great relief in a sore throat, which I had suffered from over two years."

Jaundice, or White, Persian, Throat, Gitter, Iteration, Female Diseases.

Dr. J. R. S. Channing, of New York City, writes: "I most sincerely comply with the request of your agent in saying I have found your Sarsaparilla a most excellent remedy for the numerous complaints for which we employ such remedies, but especially in Female Diseases of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration was so great that it was difficult to ascertain the cause, and I have no knowledge equal to it for female diseases.

Edward S. Marlow, of Newbury, A.R., writes: "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought it was impossible to remove it, and when I advised him to use your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW YORK, 25th August, 1859.

Dr. J. C. AYER, Sir: I cheerfully comply with the request of your agent in saying I have found the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Syphilis. A man, Dr. J. D. Jones, of our patients had Syphilis ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily taken cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the disease and eaten away a considerable part of it, so that I could hardly see his eye. He soon reached his brain and killed him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he was again, not of course without some disfigurement to his face. A woman who had been subject to syphilis for many years, suffering from this poison in her bones. She had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She too, was cured entirely by your Sarsaparilla in a few weeks. I know from Dr. Marlow, of New York, Mr. A. C. Adams, that you try your Sarsaparilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. What can be said of you is not far short of good enough."

Dr. J. C. AYER, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried everything, and everything failed to relieve me; and I have been a broken-down man for some years from no other cause than degeneracy of the liver. My beloved master, the Rev. Mr. A. C. Adams, advised me to try your Sarsaparilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. What can be said of you is not far short of good enough."

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

Dr. J. C. AYER, Sir: I have found your Sarsaparilla a powerful chonic Remedy for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried to your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I could walk about without any assistance. After taking your remedy eight weeks no symptom of the disease remains."

## Reform in the Constitution of the Colony.

Elections are the order of the day, politics are the principal topics of conversation, in England, America, Spain, and British Columbia; doubtless each country think their own particular affairs the most important, and small as is the power vested in the people of this Colony, we must not forget that there is a possibility of improvement; the evil day cannot last for ever, the one man system must have an end, and the people of British Columbia can hasten that end, by a steady determination to select no members to represent them in the Council, who are not pledged to do their utmost to reform the present system of Government. The taxpayers and electors are one and all of opinion that improvement is needed, none are contented with the existing arrangement, and although the constitution of the Colony gives the people no real voice or substantial share in the Government, it gives them an opportunity of selecting members to represent them who have the courage to stand up in their places in the Legislative Council, and tell the Governor what the people of the Colony desire, and what are their rights and privileges, and who have the perseverance to fight the people's battle step by step, no matter how small the minority in which they find themselves. Nothing can be more dangerous than the policy advocated by some of those who are so opposed to the present fallacious semblance of representative institutions, that they positively shrink from taking any part in keeping up the sham, and with this feeling overcoming all other sentiments they seriously advise that no representatives shall be selected by the people of the Colony—that this is most dangerous advice, no one who gives the subject consideration, will deny. In the first place it would be impossible, even if the people of the Colony were as one man in their unanimity of action, to prevent some persons not truly belonging to the people, from proposing and seconding some members legally qualified for the Council, although in other respects perhaps totally unfit for it, and in this manner a Council might be made up of nominees; and there would go home to the Colonial Office, false evidence of the concurrence of the people in the policy of the Government; and even if some places in the Colony who are entitled to send representatives, should be sufficiently united to be able to carry out an agreement to refrain from selecting members, what would be the effect? Would it not enable the Governor to repeat his assertion that all is progressing well and favorably, so well indeed that the people were content to leave the full control and direction of public affairs to the Executive. Mr. Seymour has shown himself so incapable of properly discharging the duties of Governor, and the Executive Council have so completely failed in advising measures of any kind for the good of the Colony, that the people's only safeguard consists in sending members to the Council who will protest against the continuance of the present irresponsible and expensive Government. Whether the people of the Colony succeed in their wishes or not, whether Confederation takes place immediately or not, they must not relax in their endeavors until they succeed in obtaining a Governor who will have the energy, at least, to make a show of doing something. The passive and apathetic indolence which pervades every being who is in any way officially connected with the Governor is most disgraceful, and has a most pernicious effect upon the progress of the Colony. As the dense fog and smoke in which we have lately been enveloped has seemed to cast an air of depression upon all active business, so has the listless apathy of the Governor and his disregard of the wants and desires of the people thrown a cloud over the prospects of the country. Had the leading officials in the Colony been men of energy, much of the evil engendered by the want of business habits of the Governor, might have been averted, or at all events counteracted, by a due attention to the administration of public affairs, but unfortunately lack of energy seems to be infectious. There is no determination to infuse any spirit of energy or activity into any branch of the public business of the Colony over which the Executive officers have any control or influence. Lamentable in-

deed would be the state of the Colony were its affairs left to the undisturbed and unquestioned direction of the Heads of Departments; the gross neglect of the Indians during the growth and progress of the epidemic which is now passing over us, is another instance, if one were wanting, of the want of care and energy of the Governor, and the officers of the Secretariat, whose duty it was to take proper steps to check the spread of the pestilence. But the instances of misgovernment are unfortunately the rule instead of the exception, and under our present system the only means that the people have of guarding the shadow of popular rights which is allowed them, and of obtaining fair representative institutions, is to send energetic, bold, and persevering men into the Council to be a check upon the official part of it, and to strive without ceasing for the rights of the people.

## Draining the Meadows on William Creek.

EDITOR COLONIST.—With \$40,000, which can easily be obtained, and give new life to the Colony, the following scheme would re-establish the lively times of 1862-3 and 4, if the Government would but sanction it. It would be this: Reserve all the claims on William Creek and Willow River, from Marysville to the mouth of Mosquito Creek with all of the water, and divide it into fifty feet claims extending from hill to hill, thereby ensuring fifty feet of the channel to each claim; the number of claims would be about four hundred; to sell them at one hundred dollars each, guaranteeing that the purchaser shall be at no more expense until his claim shall be drained, and that the money shall be used for draining, which will amount to about forty thousand dollars and by allowing five miles to be reserved and about one mile waste for drainage. Then let out a contract to twelve competent miners to run a drain the whole distance, at one dollar and fifty cents per foot; this would about keep them in provisions, tools, &c., and as an inducement to get such men to take hold of the work, give them the right to collect one dollar per day from each claim for drainage with the right to wash the dirt taken out of the drain; which would guarantee each contractor a fortune, to be gained with four years' labor, *Who would not be willing to take a chance?*

In California it is common where men with means that have a four or five years' job ahead, (to run through rim rock), for them to divide their interest with a partner who will work for wages; elsewhere, to support both while the tunnel is being run, or give a merchant one half of their claim to see them through. There are many ways to obtain assistance with so good a prospect ahead; in this case the miner has all in his favor and the Government also would be perfectly safe, by retaining five thousand dollars to pay for the surveying of 401 straight lines across William Creek and to pay an officer or some other responsible person a nominal salary for receiving the work and paying for it. By this means, in three years, the drain would be completed about four miles, which would afford three miles of mining ground, and although the funds would then be exhausted, as the contractors would have an income of three hundred dollars per day, they would be able and anxious to complete the other miles at their own expense, and thereby, in my opinion, facilitate the working of the richest four miles of placer diggings in the world; for in proportion as the upper part of William Creek yielded coarse gold, so it is reasonable to suppose the lower part would yield scale and fine gold.

The Government controlling the work would give purchasers and contractors the requisite confidence for such an undertaking, and if put into operation immediately in twelve months from to-day, the first claim would be drained and the contractors' income would be thereby increased every day. Wiser heads will readily see how to put this plan into operation and keep the meadows from capitalists who would reap the gold with very little benefit to the Colony.

Yours,

One who has prospected two years in the meadows, and is aware of the necessity of drainage and the existence of gold.

## A Public Market.

EDITOR COLONIST.—On several occasions in past years, I have endeavored to point out the importance of a market in this city to which families might resort for the purchase of farm produce; but the indifference and apathy of our farmers have hitherto prevented its establishment. It is possible that they may now be alive to their interests, and the recent revival of the Agricultural Society induces me to broach the subject again.

I will simply mention the benefit which would accrue both to the producer and consumer: The former, instead of carrying round to the various stores, grain, vegetables &c., which he is obliged to sell at whatever price may be offered rather than return home with his cart full, will take them direct to the market where he will be brought into immediate contact with the consumer, who will at all times give the fair and proper price in cash. The latter will, to the great benefit of his family, be able at all times to obtain fresh vegetables, eggs, butter, &c., at the lowest price.

As a father of a family I can testify to the difficulty I have in obtaining these articles, and to the regret which I feel at being obliged to be dependent on the occasional visits of a Chinaman. Should there be any probability of the subject being practically taken hold of, I would in a subsequent letter enlarge on its importance.

Yours, &c.,

E. G. A.

Editorial Correspondence—No. 13.

## Editorial Correspondence—No. 13.

UTICA, N. Y., Aug 15, 1868.

While coming down from Saratoga yesterday in the cars to strike the Central Railroad for Niagara Falls and Canada, the danger whistle was suddenly sounded and the brakes were shut down, but before the train could be "slowed," there came a crash and a jar that thrilled like an electric shock through every car. Instantly three or four hundred passengers were on their feet and stretching their eager necks out of the windows to ascertain the cause of the shock. The cause was soon apparent. The engine had struck a loaded wagon as it was being driven across the track, crushed it to atoms, and threw its driver—an old man of 60—from his seat to the ground with such force as to injure him in the most fearful and hopeless manner. The horses escaped and started off down the road with a part of the wreck attached to the shafts at a breakneck rate of speed. The old man was raised tenderly in the arms of the brakemen and carried into a house near by. His long grey locks were streaked with gore which flowed from cruel wounds on his head and his breathing became slow and labored. A physician pronounced him dead "to all intents and purposes." The breathing was merely the flickering of the candle in the socket before it burned out entirely. We left the poor old man in good hands and were soon rolled on again towards our destination, arriving at Utica at 10 o'clock the same evening, and remaining over until to-day.

Utica is a handsomely built city of about 25,000 people. It has several large woollen and cotton factories and being situated in the centre of a rich agricultural district and on the line of the Erie Canal and New York Central Railroad, is necessarily a place of importance and wealth.

Horatio Seymour, the Democratic Candidate for President, resides here. This morning he was pointed out to me on the street. His features are not unlike those of Colonel Baker, formerly Senator from Oregon, who was killed in the civil war, and his eye is the most expressive and intelligent. He is apparently about 50 years of age, dresses very plainly, and wears a tall black hat much the worse for wear. His father, in a fit of insanity, produced by business reverses, blew his brains out thirty years ago, and this fact the Radical press have the good taste to revive and produces as a reason why the Democratic Candidate should not be returned!

THE MOMENTOUS QUESTION.—Bank Managers, Note Discounters, Wholesale Merchants, Real Estate Dealers and Money Lenders, invariably now enquire before transacting business with customers, 'Are you insured.' The Phoenix Fire Assurance Company, of London, Established in 1782, and which has already paid over NINE MILLION POUNDS sterling for losses, continues to insure in British Columbia at as low rates as any other responsible office. Victoria Agency at Adams & Beaven's Store, Government street, Victoria.

The people have been so much imposed upon by several worthless Sarsaparilla that we are glad to be able to recommend a preparation which can be depended on as containing the virtues of that invaluable medicine, and is worthy of the public confidence. Dr. Ayer's SARASAPARILLA cures when anything can cure the diseases that require any alternative medicine.

The Government controlling the work would give purchasers and contractors the requisite confidence for such an undertaking, and if put into operation immediately in twelve months from to-day, the first claim would be drained and the contractors' income would be thereby increased every day. Wiser heads will readily see how to put this plan into operation and keep the meadows from capitalists who would reap the gold with very little benefit to the Colony.

Yours,

One who has prospected two years in the meadows, and is aware of the necessity of drainage and the existence of gold.

## DISSOLUTION OF PARTNERSHIP.

THE PARTNERSHIP HERETOFORE existing between Helman Lewis and Louis Anthony, under the firm name of Lewis, Anthony, & Co., is this day dissolved by mutual consent.

Lewin will continue the business in his own name; will collect all outstanding debts of late firm, and will pay all accounts due by same.

Victoria, Oct. 13th, 1868.

HELMAN LEWIN,  
LOUIS ANTHONY.  
witness—A. Gilmore.

## Small Pox.

As some anxiety prevails amongst the public to learn the condition of the disease in regard to the city, we yesterday tried to ascertain particulars. First, the Municipal Sanitary Commission have had all the smallpoxes, hitherto occupied by Indians in the lower portions of the city, thoroughly cleansed and whitewashed, and the rubbish and nuisances about them removed and burned. An inspection will satisfy anyone that this duty has been well performed. Fresh cases amongst those people are now reported to the authorities at once, and the patients thereupon removed to the hospital at the Reserve, where there is a nurse paid \$2 a day, to supply everything requisite during sickness, and to see to immediate interment in case of death. A daily report has also been requested from the members of the medical profession, of cases coming under their cognizance respectively. Up to Monday, and since last report, Dr Davis sent, reported five cases amongst the Indians, four of which proved fatal; on the 13th Dr Powell reported a white man sent to the hospital, since which no further cases were reported to the Town Clerk. It is, however, desirable that every case occurring amongst the white population should be reported as well as those amongst the Indians, in order to prevent a spread of the disease. The authorities should also insist that the interments on the Reserve be made deeper than some of the Indian bodies have been, and that a lot of old Indian clothes and bedding lying at present about there, should be immediately buried. Whatever may be the number of cases amongst the white population, and we have no means of ascertaining accurately, there can be no doubt that amongst the Indians, the disease is abating.

A QUESTION OF GOING TO BED.—The right of a master to order a servant to go to bed, was the question involved in a case which came before the County Court Judge at Guilford, England, recently. Elizabeth Wheatley sued James White for 16s 8d in lieu of notice. The defendant is the landlord of the Talbot Inn at Ripley. The plaintiff said she was in the service of defendant, who had dismissed her without giving her any notice. The cause of her dismissal was that the defendant came down into the kitchen one night and told her to go to bed at a quarter to 10 o'clock. She refused to do so as they never went to bed till half-past 10. On the following morning he threatened to kick her out of the house if she did not go. The Judge gave this decision: 'I think your master was quite right in dismissing you. When your master told you to go to bed it was your duty to do so; and as you did not obey his reasonable commands, he was justified in dismissing you. I shall find a verdict for the defendant.'—*Pall Mall Gazette*

The emigration of women to Canada under the supervision of Miss Rye, has been the subject of a communication from a resident of Montreal to the London *Times*. The writer says: 'Having much to do with the English poor in Montreal, and having lived for thirty-six years in various parts of Canada, I would caution the English public, and more particularly that class of women you propose sending out here, against too much enthusiasm in the matter. I have no hesitation in saying, women are not wanted in Canada; there are plenty and to spare here; but the class who should fill the position of household servants prefer a bare living at anything else with their liberty. Consequently, good household servants, and they alone, are needed.'

LATE PERIODICALS.—We have received the July numbers of the American publication of the 'London Quarterly,' the Westminster and the Edinburgh Reviews; also the August edition of 'Blackwood,' which are published in New York by the Leonard Scott Publishing Company. We have too, to acknowledge the receipt by last mail of the September copies of the 'Overland Monthly' and California 'Medical Gazette,' before treated of. These latter, as most of our readers will no doubt be already aware, are, we might almost say, local; they are published in San Francisco from the house of A. Roman & Company. Most of the articles in all of them are worthy of perusal—they can be had through Hibben & Co., booksellers, of this city.

THE Duke of Edinburgh will start in October next on a second cruise in H M S *Galeata*, round the world. The following is the route decided upon: Starting from Plymouth the Duke will proceed to Madeira, Fayal, Ascension, Cape of Good Hope, Mauritius, Bombay, Trincomalee, (Ceylon), Madras, Calcutta, Penang, Singapore, Hong Kong, Manila, Yokohama (Japan), down to Sydney and New Zealand, then to Honolulu, and to the beautiful South Sea Islands, Valparaiso, Lima, St. Blas, Magdalena, San Francisco and Vancouver Island, and so returning home. The trip is expected to last one year and ten months.

BURRARD INLET.—There are three ships loading at the mills on the Inlet; two at the Messrs. Moody's mills, and one at Capt. Stamp's. The Manoa Loa would have left yesterday for Capt. Stamp's mill had the weather allowed the steamer *Isabel* to attempt the trip, but the weather was bad.

Eastern States.

New York, Oct 12.—In the Protestant Episcopal convention to-day, a lengthy memorial was presented, protest-

ing against deviations from the prescribed ritual of the Church, directed against the High Church practices and praying the passage of a canon establishing and embracing uniformity in Divine Worship in all the Churches. Judge Cunningham, who presented the memorial also presented a canon in conformity with the views therein set forth, forbidding extraordinary vestments during worship, candlesticks, candelabra on communion table, bowing at the name of Jesus, the elevation of either of the elements during communion, and other High Church practices.

CHICAGO, Oct. 12.—The Italians in several cities to-day, celebrated the anniversary of the discovery of America.

MONTGOMERY, Oct. 12.—Governor Smith has issued proclamation for an election for President in November.

CHICAGO, Oct. 14.—Returns from the Nebraska election are meagre, but show a Republican gain. The Republicans claimed the State by 2000. Latest—Chicago 14th, the contest in Indiana on the State ticket is very close; both parties claiming it.

COLUMBIA, Ohio, Oct. 14.—The Democratic Congressmen have been elected to 1st, 5th, 9th, 12th, and 13th districts. The other seven have gone Republican. The Republican majority in the State is about 15,000. Schenck beats Vandalia by 494 votes. Forney telegraphs that the Democratic Mayor of Philadelphia is elected by 2000 majority. The Republicans carry other city offices. The press claims a majority of 18,000 in the State; it is estimated that there have been 74 Democrats and 57 Republicans elected in the Assembly.

PHILADELPHIA, Sept 28.—During a political party to day, as the rear of the 'Invincibles' was turning the corner of Seventh and Chestnut streets, a collision occurred with the Keystone Democratic Club. Pistols were freely used and several persons injured. Mrs Anna Wallace, a young married lady, of Richland county, Wisconsin, was brutally murdered on Wednesday, by a young lad named Neville, fifteen years old, who had been working for her father-in-law. The murderer fled, but was captured on the Mississippi river and brought back on Saturday. After the funeral of the lady, the crowd took the murderer out of jail and hung him.

WASHINGTON, Oct. 13.—Evening.—The Express publishes an account of a plot to assassinate President Johnson; fifty negroes and three white men were sworn to kill the President. The employees of the Treasury Department exposed the plot which was arranged since the Impeachment trial. The storm causes much comment, but the community are generally incredulous.

HAVANA, Oct. 12.—Captain General Lersundi to-day issued an eloquent proclamation to the citizens and soldiers enjoining tranquility and order.

HAVANA, Oct. 12.—General Lersundi has not proclaimed for the Provisional Government of Spain, but will maintain order and law. He says as a loyal Spaniard, he only retains and governs the Island as a portion of the Spanish Dominion, irrespective of parties governing; the country city and all are stated as entirely tranquil. The people respect and obey General Lersundi.

## Medical.

**THE GRAND PROMOTERS OF HEALTH.**  
**HOLLOWAY'S PILLS.**

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of the fine purifying and restorative pills, which cleanse the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback.

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by it are numerous, that it is now a common remedy. It has been a remedy for bilious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the best effects of Holloway's invaluable Pills are permanent and extensive, that the whole system is renovated, the organs of nutrition strengthened, and the patient's strength increased, both physical and moral; and it increases.

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. After doses of the new Holloway's Pills, the cure is almost always complete, and never fails to give great relief to those who are subject to this disease.

The Female's Best Friend

For all debilitated disorders peculiar to the woman, in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will cure all functional derangements to which they are subject.

Sorcerous and Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the pills act upon the blood, which they purify, the ointment passes through the skin and cleanses every structure, as well as saturates the hair as salt penetrates the soil. The whole physical machinery is thus rendered healthy, regular and vigorous.

Coughs, Colds and Asthma.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthma has already passed, they may be relied upon to stop it and never failing remedy, particularly if the patient be simultaneously well rubbed in the chest and throat.

Indigestion--Billious Headache.

These pills may sometimes be required for this disorder, but it should be borne in mind that by inattention and neglect, many cases of indigestion are easily brought about by a deranged stomach. Take Holloway's Pillss, rub them into the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Aneurism, Female Irregularities, Scrofula, King

Bilious Complaints, Feverish & Kindred Diseases, Skin Complaints, Gout, Rheumatism, &c.

Colic, Indigestion, Jaundice, Ulcers, &c.

disease referred to herein.

EXTRAORDINARY

CURE OF A COUGH.

The following letter has been received from WILLIAM BOARDS, Esq., an extensive agriculturist and land agent, residing at Edmonton, Middlesex:—

"Nightingale Hall, Edmonton.  
Dear Sir,—I have recently suffered much from a most violent cough, proceeding, from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly aching, and my whole frame entirely shaken. I had the good effects of your Balsam of Aniseed and several members of my family, who had purchased a small bottle of it, when going to bed at night took a teaspoonful in two or three cupsful of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well, and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My cough entirely left me, and has never returned. Having since heard of a lady in the neighborhood who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true.

I shall take every opportunity of recommending your estimable medicine, feeling as I do fully assured of its efficacy.

"I am, dear Sir, yours very truly,

To Mr. Thos. Powell."

W.M. BOARDS.

Oct 1st

POWELL'S BALSAM OF ANISEED,

For Coughs, Colds, Influenza, Shortness of Breath, Asthma, Bronchitis, and for all affections of the Lungs, this old established remedy will be found invaluable.

The large sales and increased demand for this excellent and elegant preparation, which has followed its introduction into Australia, New Zealand and nearly all the British Colonies, has induced the Proprietor to still further extend the beneficial results of its use; and he begs to announce that he is now introducing its sale into Victoria, B.C., and has appointed Messrs Millard and Beedy, Wharf Street, Victoria, Wholesale Agents, through whom Chemists and Stoekkeepers can obtain their supply.

The Price is within the means of all classes.

Established 1824.

Prepared and Sold by THOMAS POWELL,

16, Blackfriars Road, London. Sold in bottles, by all Chemists and Patent Medicine Vendors throughout the World.
